## The Company and its Business

### *Company Overview*

We promote approximately 18 fights a year in men's boxing, and we are expanding into women's combat sports as well.

We've won contracts across the industry, earning ongoing revenues and sponsorship dollars—on an annualized and per fight basis. We specialize in grooming our fighters and put them in positions to fight for World titles, which in return increases the company's sales and profit.

Boxing is about health, fitness, entertainment, training, comedy, heroism, education, hope, and community. Leveraging our booming audience, we are creating new revenue streams around these values—exploring new revenue streams at the same time.

Our main revenue streams right now are

1. Site fees or ticket sales (depends which deal we structure with venue). When a fight is put on the calendar either we get paid by the venue a certain fee or the venue let's up keep all the ticket sales.

2. UFC license fee - This is a fee that UFC pays RJJ to exclusively carry our fights on their platform, which is UFC Fight Pass.

3. Sponsorship - Currently we have over 4 main sponsors for our events. Sponsors pay RJJ on every fight to bring brand awareness to their product.

4. Fighters - Positioning fighters to fight for World Titles allows the Promoter to make a percentage of the fighter's purse. This can vary depending on the platform the fighter fights on.

**EXPAND PROMOTIONS REVENUES:** Growing our existing program, including expanding brand sponsorship and promotions (such as our relationship with the UFC) and investing in fighters with growing successes as well as blue chip fighters that reflect the reputation we've earned.

**DIVERSIFY SPORTS & FIGHTERS:** We are expanding our emphasis on fans and sports they support by securing key acquisitions to diversify into women's combat sports and other martial combat sports (e.g., Jiu Jitsu) with similar audiences and competitors, which will support the growth of our fundamental business.

**MEDIA & CONTENT REVENUE:** We are building a Media Company and multiple digital fan experiences that will produce and serve content, monetized through sponsorships and advertising.

**ECOMMERCE REVENUE:** We are deploying the first ecommerce marketplace for champions and hobbyists alike to gain access to the highest quality professional grade boxing products in the world.

**LIVE EVENTS:** We are readying a live fan expo for launch, reinventing the way fans connect in person with the sport and its athletes.

**ORIGINAL CONTENT:** Scripted and Unscripted Episodic Shows monetized by brand sponsors and global licensing/distribution revenues.

Roy Jones Jr. Promotions was originally set up in 2016 as an LLC. In June of 2019 the Board of Directors approved a resolution to have the Company make the change from an LLC to a C-Corp.

#### *Competitors and Industry*

Currently, we have three different companies that we face competition from and they are as follows:

1. **Top Rank** - Current deal with ESPN and promote World Championship boxing.
2. **Golden Boy Promotions** - Current deal with DAZN, which is an online streaming service for combat sports.
3. **PBC** - Current deal with Showtime and Fox Sports and also promotes Championship boxing.

The current state of combat sports is flourishing and a lot of providers are securing live combat sports as live events keep viewers entertained and coming back.

### *Current Stage and Roadmap*

**EXPAND PROMOTIONS REVENUE** - Our goal to increase sales is already on track to double within the next year and has committed revenues through 2020 via UFC Fight Pass.

**DIVERSIFY SPORTS & FIGHTERS** - It is our goal that before the end of the year for acquiring 1-2 women's leagues and launching a new team based combat sports fight series.

**MEDIA & CONTENT REVENUE** - It is our hope that we have brought the right partners on board to launch a full content portal optimized for mobile and web access, including the content production, IP development, audience acquisition, and marketing execution strategists.

**ECOMMERCE REVENUE** - Our goal for the ecommerce platform is to be developed before the end of 2019 and we anticipate that our buyers will have established reseller relationships for the marketplace with at least 12 brands in Q1 2020.

**LIVE EVENTS** - We've identified the venue and because of RJJ we have the relationships with the fighters and talent that fans look forward to. This will hopefully be an easy win for us. In addition, we have the relationship necessary to produce this event with excellent production, great venue/location, and with top tier sponsors.

**ORIGINAL CONTENT** - Our hopes are to have 2+ Content Series in early development by the end of 2019 for both scripted and unscripted content. We will work with elite creators in Hollywood. We have relationships on both the production and distribution side and hopefully this will help us quickly get 2 teasers and pitches together over the course of the six months and take these to market.

## Risk Factors

The SEC requires the company to identify risks that are specific to its business and its financial condition. The company is still subject to all the same risks that all companies in its business, and all companies in the economy, are exposed to. These include risks relating to economic downturns, political and economic events and technological developments (such as hacking and the ability to prevent hacking). Additionally, early-stage companies are inherently more risky than more developed companies. You should consider general risks as well as specific risks when deciding whether to invest.

These are the risks that relate to the Company:

### ***Uncertain Risk***

An investment in the Company (also referred to as “we”, “us”, “our”, or “Company”) involves a high degree of risk and should only be considered by those who can afford the loss of their entire investment. Furthermore, the purchase of any of the common stock should only be undertaken by persons whose financial resources are sufficient to enable them to indefinitely retain an illiquid investment. Each investor in the Company should consider all of the information provided to such potential investor regarding the Company as well as the following risk factors, in addition to the other information listed in the Company's Form C. The following risk factors are not intended, and shall not be deemed to be, a complete description of the commercial and other risks inherent in the investment in the Company.

### ***Our business projections are only projections***

There can be no assurance that the Company will meet our projections. There can be

no assurance that the Company will be able to find sufficient demand for our product, that people think it's a better option than a competing product, or that we will be able to provide the service at a level that allows the Company to make a profit and still attract business.

***Any valuation at this stage is difficult to assess***

The valuation for the offering was established by the Company. Unlike listed companies that are valued publicly through market-driven stock prices, the valuation of private companies, especially startups, is difficult to assess and you may risk overpaying for your investment.

***The transferability of the Securities you are buying is limited***

Any equity purchased through this crowdfunding campaign is subject to SEC limitations of transfer. This means that the stock/note that you purchase cannot be resold for a period of one year. The exception to this rule is if you are transferring the stock back to the Company, to an "accredited investor," as part of an offering registered with the Commission, to a member of your family, trust created for the benefit of your family, or in connection with your death or divorce.

***Your investment could be illiquid for a long time***

You should be prepared to hold this investment for several years or longer. For the 12 months following your investment there will be restrictions on how you can resell the securities you receive. More importantly, there is no established market for these securities and there may never be one. As a result, if you decide to sell these securities in the future, you may not be able to find a buyer. The Company may be acquired by an existing player in the educational software development industry. However, that may never happen or it may happen at a price that results in you losing money on this investment.

***If the Company cannot raise sufficient funds it will not succeed***

The Company, is offering equity in the amount of up to \$1,070,000 in this offering, and may close on any investments that are made. Even if the maximum amount is raised, the Company is likely to need additional funds in the future in order to grow, and if it cannot raise those funds for whatever reason, including reasons relating to the Company itself or the broader economy, it may not survive. If the Company manages to raise only the minimum amount of funds, sought, it will have to find other sources of funding for some of the plans outlined in "Use of Proceeds."

***We may not have enough capital as needed and may be required to raise more capital.***

We anticipate needing access to credit in order to support our working capital requirements as we grow. Although interest rates are low, it is still a difficult environment for obtaining credit on favorable terms. If we cannot obtain credit when we need it, we could be forced to raise additional equity capital, modify our growth plans, or take some other action. Issuing more equity may require bringing on additional investors. Securing these additional investors could require pricing our equity below its current price. If so, your investment could lose value as a result of this additional dilution. In addition, even if the equity is not priced lower, your ownership

percentage would be decreased with the addition of more investors. If we are unable to find additional investors willing to provide capital, then it is possible that we will choose to cease our sales activity. In that case, the only asset remaining to generate a return on your investment could be our intellectual property. Even if we are not forced to cease our sales activity, the unavailability of credit could result in the Company performing below expectations, which could adversely impact the value of your investment.

***Terms of subsequent financings may adversely impact your investment***

We will likely need to engage in common equity, debt, or preferred stock financings in the future, which may reduce the value of your investment in the Common Stock.

Interest on debt securities could increase costs and negatively impact operating results. Preferred stock could be issued in series from time to time with such designation, rights, preferences, and limitations as needed to raise capital. The terms of preferred stock could be more advantageous to those investors than to the holders of Common Stock. In addition, if we need to raise more equity capital from the sale of Common Stock, institutional or other investors may negotiate terms that are likely to be more favorable than the terms of your investment, and possibly a lower purchase price per share.

***Management Discretion as to Use of Proceeds***

Our success will be substantially dependent upon the discretion and judgment of our management team with respect to the application and allocation of the proceeds of this Offering. The use of proceeds described below is an estimate based on our current business plan. We, however, may find it necessary or advisable to re-allocate portions of the net proceeds reserved for one category to another, and we will have broad discretion in doing so.

***Projections: Forward Looking Information***

Any projections or forward looking statements regarding our anticipated financial or operational performance are hypothetical and are based on management's best estimate of the probable results of our operations and will not have been reviewed by our independent accountants. These projections will be based on assumptions which management believes are reasonable. Some assumptions invariably will not materialize due to unanticipated events and circumstances beyond management's control. Therefore, actual results of operations will vary from such projections, and such variances may be material. Any projected results cannot be guaranteed.

***Minority Holder; Securities with Voting Rights***

The equity that an investor is buying has voting rights attached to them. You are trusting in management discretion in making good business decisions that will grow your investments. Furthermore, in the event of a liquidation of our company, you will only be paid out if there is any cash remaining after all of the creditors of our company have been paid out.

***You are trusting that management will make the best decision for the company***

You are trusting in management discretion. You are buying shares as a minority

holder, and therefore must trust the management of the Company to make good business decisions that grow your investment.

***Our new product could fail to achieve the sales projections we expected***

Our growth projections are based on an assumption that with an increased advertising and marketing budget our products will be able to gain traction in the marketplace at a faster rate than our current products have. It is possible that our new products will fail to gain market acceptance for any number of reasons. If the new products fail to achieve significant sales and acceptance in the marketplace, this could materially and adversely impact the value of your investment.

***We face significant market competition***

We will compete with larger, established companies who currently have products on the market and/or various respective product development programs. They may have much better financial means and marketing/sales and human resources than us. They may succeed in developing and marketing competing equivalent products earlier than us, or superior products than those developed by us. There can be no assurance that competitors will render our technology or products obsolete or that the products developed by us will be preferred to any existing or newly developed technologies. It should further be assumed that competition will intensify.

***We are competing against other recreational activities***

Although we are a unique company that caters to a select market, we do compete against other recreational activities. Our business growth depends on the market interest in the Company over other activities.

***Our trademarks, copyrights and other intellectual property could be unenforceable or ineffective***

Intellectual property is a complex field of law in which few things are certain. It is possible that competitors will be able to design around our intellectual property, find prior art to invalidate it, or render the trademarks unenforceable through some other mechanism. If competitors are able to bypass our trademark and copyright protection without obtaining a sublicense, it is likely that the Company's value will be materially and adversely impacted. This could also impair the Company's ability to compete in the marketplace. Moreover, if our trademarks and copyrights are deemed unenforceable, the Company will almost certainly lose any potential revenue it might be able to raise by entering into sublicenses. This would cut off a significant potential revenue stream for the Company.

***The cost of enforcing our trademarks and copyrights could prevent us from enforcing them***

Trademark and copyright litigation has become extremely expensive. Even if we believe that a competitor is infringing on one or more of our trademarks or copyrights, we might choose not to file suit because we lack the cash to successfully prosecute a multi-year litigation with an uncertain outcome; or because we believe that the cost of enforcing our trademark(s) or copyright(s) outweighs the value of winning the suit in light of the risks and consequences of losing it; or for some other reason. Choosing not

to enforce our trademark(s) or copyright(s) could have adverse consequences for the Company, including undermining the credibility of our intellectual property, reducing our ability to enter into sublicenses, and weakening our attempts to prevent competitors from entering the market. As a result, if we are unable to enforce our trademark(s) or copyright(s) because of the cost of enforcement, your investment in the Company could be significantly and adversely affected.

***The loss of one or more of our key personnel, or our failure to attract and retain other highly qualified personnel in the future, could harm our business***

To be successful, the Company requires capable people to run its day to day operations. As the Company grows, it will need to attract and hire additional employees in sales, marketing, design, development, operations, finance, legal, human resources and other areas. Depending on the economic environment and the Company's performance, we may not be able to locate or attract qualified individuals for such positions when we need them. We may also make hiring mistakes, which can be costly in terms of resources spent in recruiting, hiring and investing in the incorrect individual and in the time delay in locating the right employee fit. If we are unable to attract, hire and retain the right talent or make too many hiring mistakes, it is likely our business will suffer from not having the right employees in the right positions at the right time. This would likely adversely impact the value of your investment.

***We rely on third parties to provide services essential to the success of our business***

We rely on third parties to provide a variety of essential business functions for us, including manufacturing, shipping, accounting, legal work, public relations, advertising, retailing, and distribution. It is possible that some of these third parties will fail to perform their services or will perform them in an unacceptable manner. It is possible that we will experience delays, defects, errors, or other problems with their work that will materially impact our operations and we may have little or no recourse to recover damages for these losses. A disruption in these key or other suppliers' operations could materially and adversely affect our business. As a result, your investment could be adversely impacted by our reliance on third parties and their performance.

***The Company is vulnerable to hackers and cyber-attacks***

As an internet-based business, we may be vulnerable to hackers who may access the data of our investors and the issuer companies that utilize our platform. Further, any significant disruption in service on Roy Jones Jr Promotions or in its computer systems could reduce the attractiveness of the platform and result in a loss of investors and companies interested in using our platform. Further, we rely on a third-party technology provider to provide some of our back-up technology. Any disruptions of services or cyber-attacks either on our technology provider or on Roy Jones Jr Promotions could harm our reputation and materially negatively impact our financial condition and business.

***Risk Related To a Non Renewal Contract With UFC***

The Company's contract ends with the UFC in 2021. Even though there is extension

clauses attached there is no guarantee it will get extended.

#### ***Combat Sports Competition***

Our promotional company will be facing competition from several other promotional company's that have entered our market. There is a risk of lower viewership attendance and revenue due to competition from the other promotional company's.

#### ***Developing Media Content***

We are in the beginning stages of developing media content and there is no guarantee that the content will be acquired or sponsorship will be attached to it.

#### ***Live Events***

The Company is in the beginning stages of developing live events to showcase Combat stars. There is no guarantee that the fans will accept these and attend.

#### ***E-commerce***

The Company is in the beginning stages of developing their e-commerce site to sell various products from the Combat world. There is no guarantee that we will establish an audience for our product.

#### ***Injury to Fighter***

Since Combat Sports is extremely physical, there is always the risk of a fighter getting hurt during training or competition. There is sufficient amount of money invested in the fighters and if a fighter becomes a star the Company could incur loses from the fighter not fighting.

#### ***FORWARD-LOOKING STATEMENTS***

THE OFFERING MATERIALS MAY CONTAIN FORWARD-LOOKING STATEMENTS AND INFORMATION RELATING TO, AMONG OTHER THINGS, THE COMPANY, ITS BUSINESS PLAN AND STRATEGY, AND ITS INDUSTRY. THESE FORWARD-LOOKING STATEMENTS ARE BASED ON THE BELIEFS OF, ASSUMPTIONS MADE BY, AND INFORMATION CURRENTLY AVAILABLE TO THE COMPANY'S MANAGEMENT.

WHEN USED IN THE OFFERING MATERIALS, THE WORDS "ESTIMATE," "PROJECT," "BELIEVE," "ANTICIPATE," "INTEND," "EXPECT" AND SIMILAR EXPRESSIONS ARE INTENDED TO IDENTIFY FORWARD-LOOKING STATEMENTS, WHICH CONSTITUTE FORWARD LOOKING STATEMENTS. THESE STATEMENTS REFLECT MANAGEMENT'S CURRENT VIEWS WITH RESPECT TO FUTURE EVENTS AND ARE SUBJECT TO RISKS AND UNCERTAINTIES THAT COULD CAUSE THE COMPANY'S ACTUAL RESULTS TO DIFFER MATERIALLY FROM THOSE CONTAINED IN THE FORWARD-LOOKING STATEMENTS. INVESTORS ARE CAUTIONED NOT TO PLACE UNDUE RELIANCE ON THESE FORWARD-LOOKING STATEMENTS, WHICH SPEAK ONLY AS OF THE DATE ON WHICH THEY ARE MADE. THE COMPANY DOES NOT UNDERTAKE ANY OBLIGATION TO REVISE OR UPDATE THESE FORWARD-LOOKING STATEMENTS TO REFLECT EVENTS OR CIRCUMSTANCES AFTER SUCH DATE OR TO REFLECT THE OCCURRENCE OF UNANTICIPATED EVENTS.

*This offering involves "rolling closings," which may mean that earlier investors may not have the benefit of information that later investors have.*

Once we meet our target amount for this offering, we may request that StartEngine instruct the escrow agent to disburse offering funds to us. At that point, investors whose subscription agreements have been accepted will become our [shareholders]. All early-stage companies are subject to a number of risks and uncertainties, and it is not uncommon for material changes to be made to the offering terms, or to companies' businesses, plans or prospects, sometimes on short notice. When such changes happen during the course of an offering, we must file an amended to our Form C with the SEC, and investors whose subscriptions have not yet been accepted will have the right to withdraw their subscriptions and get their money back. Investors whose subscriptions have already been accepted, however, will already be our [shareholders] and will have no such right.

## **Ownership and Capital Structure; Rights of the Securities**

### **Ownership**

The following table sets forth information regarding beneficial ownership of the company's holders of 20% or more of any class of voting securities as of the date of this Offering Statement filing.

### **What it means to be a minority holder**

As a minority holder of equity of the company, you will have limited rights in regards to the corporate actions of the company, including additional issuances of securities, company repurchases of securities, a sale of the company or its significant assets, or company transactions with related parties. Further, investors in this offering may have rights less than those of other investors, and will have limited influence on the corporate actions of the company.

### **Dilution**

Investors should understand the potential for dilution. The investor's stake in a company could be diluted due to the company issuing additional shares. In other words, when the company issues more shares, the percentage of the company that you own will go down, even though the value of the company may go up. You will own a smaller piece of a larger company. This increase in number of shares outstanding could result from a stock offering (such as an initial public offering, another

crowdfunding round, a venture capital round, angel investment), employees exercising stock options, or by conversion of certain instruments (e.g. convertible bonds, preferred shares or warrants) into stock. If the company decides to issue more shares, an investor could experience value dilution, with each share being worth less than before, and control dilution, with the total percentage an investor owns being less than before. There may also be earnings dilution, with a reduction in the amount earned per share (though this typically occurs only if the company offers dividends, and most early stage companies are unlikely to offer dividends, preferring to invest any earnings into the company).

## Transferability of securities

For a year, the securities can only be resold:

- In an IPO;
- To the company;
- To an accredited investor; and
- To a member of the family of the purchaser or the equivalent, to a trust controlled by the purchaser, to a trust created for the benefit of a member of the family of the purchaser or the equivalent, or in connection with the death or divorce of the purchaser or other similar circumstance.

**Final amount sold:** \$400.00  
**Number of Securities Sold:** 4,000,000

## Financial Condition and Results of Operations

### Financial Condition

*You should read the following discussion and analysis of our financial condition and results of our operations together with our financial statements and related notes appearing at the end of this Offering Memorandum. This discussion contains forward-looking statements reflecting our current expectations that involve risks and uncertainties. Actual results and the timing of events may differ materially from those contained in these forward-looking statements due to a number of factors, including*

*those discussed in the section entitled "Risk Factors" and elsewhere in this Offering Memorandum.*

## **Results of Operations**

### **How long can the business operate without revenue:**

Since there is a license agreement in place with UFC Fight Pass to stream our fights and we also have agreements with venues to pay us site fees, we have already realized revenue in 2019, which has allowed us to be profitable and sustain operations.

Our main revenue streams right now are

1. Site fees or ticket sales (depends which deal we structure with venue)
2. UFC license fee
3. Sponsorship

### **Foreseeable major expenses based on projections:**

RJJ will incur some major expenses with its upcoming growth. The yearly expenses are as follows:

- 1. AUDIENCE ACQUISITION MARKETING - \$142,350**
- 2. MEDIA & CONTENT PROGRAM - \$181,400**
- 3. WEBSITE CONTENT PORTAL & ECOMMERCE - \$50,000**
- 4. COMBAT PROMOTIONS EXPANSION - \$175,000**
- 5. LIVE EVENT - \$185,000**

### **Future operational challenges:**

Operational challenges we foresee in the future are as follows:

1. Finding the right staff - Having the right staff to adapt to our anticipated growth will be crucial and in a productive market that right staff can be hard to come by.
2. Uncertainty - It is impossible to predict what the future brings or what will happen next.
3. Responding to the competition - Crucial to sign the right fighters before our competition does.

### **Future challenges related to capital resources:**

Some of the future challenges I see related to capital resources are the following:

1. Receivables - giving payment terms could slow our cash flow, which could limit the

speed of our anticipated growth.

2. Crowdfunding - not reaching our funding goals could make us scale back our projects and not meet business goals.

#### **Future milestones and events:**

RJJ is currently locking up commitments to produce media content that will be delivered right to the fan that will play a big part on the anticipated growing sales in 2020. RJJ is also delivering World Title fights on UFC Fight Pass on June 19th and August 2nd, that will be sure to cement RJJ as a major player in the combat arena.

### **Liquidity and Capital Resources**

**What capital resources are currently available to the Company? (Cash on hand, existing lines of credit, shareholder loans, etc...)**

The founders gave the company loans to start operations in the total original amount of \$85,000. The loans have an outstanding amount of \$42, 000 as of April 30, 2019. The company also has Citi cards credit cards with an outstanding amount of \$15,454 as of April 30, 2019. Additionally, the company has been able to generate net income in the 4 months since commencing operations for a current working capital of \$50,762 and cash on hand in the amount of \$18,716 as of April 30, 2019.

**How do the funds of this campaign factor into your financial resources? (Are these funds critical to your company operations? Or do you have other funds or capital resources available?)**

Funds that will be raised by our offering are critical to the growth of the company. As we do have contracts and fighters in place that keeps the company operational, we need the capital raise for expansion.

**Are the funds from this campaign necessary to the viability of the company? (Of the total funds that your company has, how much of that will be made up of funds raised from the crowdfunding campaign?)**

We do see this capital raise campaign crucial for the growth of the company and to be able to have the cash flow to keep the company viable in the future. If we are successful of the full raise, the capital from the crowdfunding will make up 90% of our cash.

**How long will you be able to operate the company if you raise your minimum? What expenses is this estimate based on?**

We feel that if the company only raises the minimum, we still will be able to move forward and have operations in the company. Currently, the company has contracts in

place that allow us to have events and still generate income. We would limit our growth, but still would be operational for the next 9 months.

If we reach our Minimum raise, RJJ will continue to thrive and maintain margins and cover our current expenses including: operating expenses, human resources, and production expenses related to each promoter events. The biggest impact of a lower raise will be the slower speed with which we can grow audience and launch new revenue streams by reinvesting monthly profits and leveraging existing resources to thoughtfully expand into IP Original Content, Live Events, and eCommerce programs. This may take 2-4 years to build out instead of 6-8 months.

**How long will you be able to operate the company if you raise your maximum funding goal?**

Raising the total amount of our goal allows us to reach our business goals for growth, which would increase our sales and allows us to maintain in operations for a 2 to 3 years.

If we hit our Maximum raise, we will be able to quickly expand our current revenue streams to be fully operational in less than 1 year. The costs associated with the speed to market of these new divisions are primarily in production and marketing to build these brands and the salaries related to the teams needed to support the new divisions.

**Are there any additional future sources of capital available to your company?  
(Required capital contributions, lines of credit, contemplated future capital raises, etc...)**

Currently, there isn't any plans for future capital, but that could change in the future as we look to acquire companies and look for avenues of growth.

## Valuation

**Pre-Money Valuation:** \$8,000,000.00

### Valuation Details:

The value of the company was not established using a formal appraisal, but with what we believe to be the fair market value, based on media content, brand and contracts with UFC Fight Pass. It is an arbitrary method and can incorporate other factors such as blue sky expectations based on the experience of the management team.

Our reasons for setting our value cap at 8mm is based on the following:

1. We secured a 3 year deal and options to extend with the UFC Fight Pass. The contract also has a section that allows RJJ to provide UFC Fight Pass Pay Per View. The contract allows us to produce up to 24 fights a year. Adding license fees for three years with the occasional Pay Per View, it is our opinion the contract alone is worth over 3 million.
2. Roy Jones Jr brand has value. According to open dorse (leader in sports management) ever celebrity has a value for name and likeness. Some examples that open dorse has given on Boxers in the same industry are Manny Pacquiao (3 million), Vladimir Klitschko (3.5 million), and Canelo Alvarez (2 million). We feel Roy Jones Jr falls into this category and now has graduated into legends status. Therefore, has a value over 2 million.
3. RJJ is well on its way to reach 1.2 million in sales for 2019. The first two quarters of 2019 we have realized a profit of 10% of our gross sales. Using the Hartford business owners playbook formula and double the 2019 gross revenue we have a valuation on our sales of over 2.5 million.

There is no way to guarantee that we would be able to obtain these prices in a sale and are only our predictions if we would list them on the market to our competition.

### **INDEPENDENT ACCOUNTANT'S REVIEW REPORT**

We have reviewed the accompanying financial statements of Roy Jones Jr. Promotions, LLC (the "Company,"), which comprise the balance sheet as of December 31, 2018 and 2017, and the related statement of operations, statement of members' equity (deficit), and cash flows for the year ending December 31, 201, and the related notes to the financial statements. A review includes primarily applying analytical procedures to management's financial data and making inquiries of company management. #### **Accountant's Responsibility**

Our responsibility is to conduct the review in accordance with Statements on Standards for Accounting and Review Services promulgated by the Accounting and Review Services Committee of the AICPA. We believe that the results of our procedures provide a reasonable basis for our conclusion.

#### **Accountant's Conclusion**

Based on our review, we are not aware of any material modifications that should be made to the accompanying financial statements in order for them to be in conformity with accounting principles generally accepted in the United States of America.

#### **Going Concern**

As discussed in Note 1, certain conditions indicate that the Company may be unable to continue as a going concern. The accompanying financial statements do not include any adjustments that might be necessary should the Company be unable to continue as a going concern.

## **NOTE 1 – NATURE OF OPERATIONS**

Roy Jones Jr. promotions, LLC was formed on August 16, 2016 ("Inception") in the State of Nevada. The financial statements of Roy Jones Jr. Promotions, LLC (which may be referred to as the "Company", "we," "us," or "our") are prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP"). The Company's headquarters are located in Las Vegas, Nevada.

Roy Jones Jr Promotions is currently a premier Boxing Promoter that has over 20 exclusive fighters they showcase on a long-term deal with UFC Fight Pass.

### *Going Concern and Management's Plans*

The accompanying financial statements have been prepared on a going concern basis, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. The company has a member's deficit of \$1,000 as of December 31, 2018 and December 31, 2017, no assets or liabilities as of December 31, 2018 and 2017.

During the next 12 months, the Company intends to fund its operations with funding from our proposed Regulation Crowdfunding campaign, and additional debt and/or equity financing as determined to be necessary. There are no assurances that management will be able to raise capital on terms acceptable to the Company. If we are unable to obtain sufficient amounts of additional capital, we may be required to reduce the scope of our planned development, which could harm our business, financial condition and operating results. The balance sheet and related financial statements do not include any adjustments that might result from these uncertainties.

These factors, among others, raised substantial doubt about the ability of the company to continue as a going concern for a reasonable period of time.

## **NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

### *Basis of Presentation*

The accounting and reporting policies of the Company conform to accounting principles generally accepted in the United States of America ("US GAAP").

### *Use of Estimates*

The preparation of financial statements in conformity with U.S. GAAP requires management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities, and the reported amount of expenses during the reporting periods. Actual results could materially differ from these estimates. It is reasonably possible that changes in estimates will occur in the near term.

### *Fair Value of Financial Instruments*

Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants as of the measurement date. Applicable accounting guidance provides an established hierarchy for inputs used in measuring fair value that maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the most observable inputs be used when available. Observable inputs are inputs that market participants would use in valuing the asset or liability and are developed based on market data obtained from sources independent of the Company. Unobservable inputs are inputs that reflect the Company's assumptions about the factors that market participants would use in valuing the asset or liability. There are three levels of inputs that may be used to measure fair value:

- |         |   |
|---------|---|
| Level 1 | - Observable inputs that reflect quoted prices (unadjusted) for identical assets or liabilities |
|---------|---|

See accompanying Independent Accountant's Review Report

in active markets.

Level 1 - Include other inputs that are directly or indirectly observable in the marketplace.  
2

Level 2 - Unobservable inputs which are supported by little or no market activity.  
3

The fair value hierarchy also requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value.

Fair-value estimates discussed herein are based upon certain market assumptions and pertinent information available to management as of December 31, 2018 and December 31, 2017. The respective carrying value of certain on-balance-sheet financial instruments approximated their fair values.

#### *Cash and Cash Equivalents*

For purpose of the statement of cash flows, the Company considers all highly liquid debt instruments purchased with an original maturity of three months or less to be cash equivalents.

#### *Accounts Receivable and Allowance for Doubtful Accounts*

Accounts receivable are carried at their estimated collectible amounts. Accounts receivable are periodically evaluated for collectability based on past credit history with clients and other factors. Provisions for losses on accounts receivable are determined on the basis of loss experience, known and inherent risk in the account balance, and current economic conditions. As of December 31, 2018 and 2017, the Company has no accounts receivables.

#### *Property and Equipment*

Property and equipment will be stated at cost when purchased. Depreciation will be computed primarily using the straight-line method over the estimated useful lives of the assets, which range from 5 to 39 years. Leasehold improvements are amortized over the shorter of the useful life of the related assets or the lease term. Expenditures for repairs and maintenance are charged to expense as incurred. For assets sold or otherwise disposed of, the cost and related accumulated depreciation are removed from the accounts, and any related gain or loss is reflected in income for the period. As of December 31, 2018, and 2017 the company has no property and equipment.

#### *Revenue Recognition*

The Company will recognize revenues from streaming license deals with UFC Fight Pass, ticket income and sponsorship when (a) persuasive evidence that an agreement exists; (b) the service has been performed; (c) the prices are fixed and determinable and not subject to refund or adjustment; and (d) collection of the amounts due is reasonably assured.

#### *Income Taxes*

The Company is taxed as a Limited Liability Company (LLC). Under these provisions, the Company does not pay federal corporate income taxes on its taxable income. Instead, the shareholders are liable for individual federal and state income taxes on their respective shares of the Company's taxable income. The Company will pay state income taxes at reduced rates. The Company has filed a tax return from inception through 2018 and therefore is not yet subject to tax examination by the Internal Revenue Service or state regulatory agencies.

#### *Concentration of Credit Risk*

The Company maintains its cash with a major financial institution located in the United States of America which it believes to be creditworthy. Balances are insured by the Federal Deposit Insurance Corporation up to \$250,000. At times, the Company may maintain balances in excess of the federally insured limits.

## THE PROBLEM

---

# BOXING IS NOT CONNECTED

Fans of boxing are some of the most impassioned audiences in sport. Young, old, rich, poor; our fans represent every strand that makes up the fabric of American society. But there is a **number of problems with the way boxing is being presented:**

- No connective tissue between events
- Fighters and fights feel removed, not part of a single universe
- Content is hard to access
- Lack of high-quality content

*"Fans aren't involved the way they used to be because our industry hasn't kept up with the times. Marketing for combat sports hasn't stayed relevant." - Roy Jones Jr.*

Other sports like the NFL and NBA have a brand that invites fans to access experiences that go beyond the event. **Our audience is hungry for digital content experiences and live events that allow them to show their love for the sport.** Up until now, live events are poorly executed and have limited geographical reach. Content is too difficult to access and not publicized widely enough. The sport lacks the front-of-mind impact of the NFL, NBA, or MLB.

**Boxing is just as magnetic as football; we are just lacking the brand that goes with it!**

## THE SOLUTION

---

# GIVING FANS UNPARALLELED ACCESS AND ENGAGEMENT

Based on our research, in the past few years, there has been an unprecedented resurgence of boxing fans and a burgeoning interest in other combat sports.

REGARDLESS OF BOXING TALENT AND A DIVERGING INTEREST IN OTHER COMBAT SPORTS...

Boxing fans want to connect, access content, and share their passion, they just need a central hub to do that. We will build a company that is designed from the ground-up by the fans, for the fans, and owned by the fans.

*"Combat sports and its fans have entered a new age that demands delivery of more choices, more access, more information, and more excitement." - Keith Veltre*

Going beyond just highlights or replays, we are **creating both short and long-form content that immerses the ultimate combat sports fan** in a one of a kind experience. Direct interaction with fighters, TV Series on the future of boxing, and more will be found at the RJJ Promotions one-stop-shop of boxing content.

## **STARTENGINE SUBSCRIPTION PROCESS (Exhibit E)**

### Platform Compensation

- As compensation for the services provided by StartEngine Capital, the issuer is required to pay to StartEngine Capital a fee consisting of a 6-8% (six to eight percent) commission based on the dollar amount of securities sold in the Offering and paid upon disbursement of funds from escrow at the time of a closing. The commission is paid in cash and in securities of the Issuer identical to those offered to the public in the Offering at the sole discretion of StartEngine Capital. Additionally, the issuer must reimburse certain expenses related to the Offering. The securities issued to StartEngine Capital, if any, will be of the same class and have the same terms, conditions and rights as the securities being offered and sold by the issuer on StartEngine Capital's website.

### Information Regarding Length of Time of Offering

- Investment Cancellations: Investors will have up to 48 hours prior to the end of the offering period to change their minds and cancel their investment commitments for any reason. Once within 48 hours of ending, investors will not be able to cancel for any reason, even if they make a commitment during this period.
- Material Changes: Material changes to an offering include but are not limited to: A change in minimum offering amount, change in security price, change in management, material change to financial information, etc. If an issuer makes a material change to the offering terms or other information disclosed, including a change to the offering deadline, investors will be given five business days to reconfirm their investment commitment. If investors do not reconfirm, their investment will be cancelled and the funds will be returned.

### Hitting The Target Goal Early & Oversubscriptions

- StartEngine Capital will notify investors by email when the target offering amount has hit 25%, 50% and 100% of the funding goal. If the issuer hits its goal early, and the minimum offering period of 21 days has been met, the issuer can create a new target deadline at least 5 business days out. Investors will be notified of the new target deadline via email and will then have the opportunity to cancel up to 48 hours before new deadline.
- Oversubscriptions: We require all issuers to accept oversubscriptions. This may not be possible if: 1) it vaults an issuer into a different category for financial statement requirements (and they do not have the requisite financial statements); or 2) they reach \$1.07M in investments. In the event of an oversubscription, shares will be allocated at the discretion of the issuer.
- If the sum of the investment commitments does not equal or exceed the target offering amount at the offering deadline, no securities will be sold in the offering, investment commitments will be cancelled and committed funds will be returned.
- If a StartEngine issuer reaches its target offering amount prior to the deadline, it may conduct an initial closing of the offering early if they provide notice of the new offering deadline at least five business days prior to the new offering deadline (absent a material change that would require an extension of the offering and reconfirmation of the investment commitment). StartEngine will notify investors when the issuer meets its

target offering amount. Thereafter, the issuer may conduct additional closings until the offering deadline.

#### Minimum and Maximum Investment Amounts

- In order to invest, to commit to an investment or to communicate on our platform, users must open an account on StartEngine Capital and provide certain personal and non-personal information including information related to income, net worth, and other investments.
- Investor Limitations: Investors are limited in how much they can invest on all crowdfunding offerings during any 12-month period. The limitation on how much they can invest depends on their net worth (excluding the value of their primary residence) and annual income. If either their annual income or net worth is less than \$107,000, then during any 12-month period, they can invest up to the greater of either \$2,200 or 5% of the lesser of their annual income or net worth. If both their annual income and net worth are equal to or more than \$107,000, then during any 12-month period, they can invest up to 10% of annual income or net worth, whichever is less, but their investments cannot exceed \$107,000.
